Feature	Description	Type	Related Use Case	Classes	Key Methods	Sequence Diagrams	Design Patterns
F01 - Import File	Loads transactions from a CSV into the system with an option to preview.	Deterministic	Use Case #01	GUI, AgentController, ImportService, ParserFactory, StatementParser, CsvParser, TDParser, CIBCParser, ImportResult, Transaction, Account, DatabaseManager, CategorizationService, BudgetService	previewImport(), confirmImport(), createParser(), parse(), validateRow(), findDuplicates(), save()	SD1	Singleton, Factory

Feature	Description	Type	Related Use Case	Classes	Key Methods	Sequence Diagrams	Design Patterns
F02 - Auto Categorization	Assigns each imported transaction a category. The transactions will be categorized using stored rules first then Claude for the unmatched ones.	Hybrid	Use Case #02	AgentController, CategorizationService, CategoryRule, Transaction, Category, LLMClient, ClaudeClient, AnthropicApi, DatabaseManager	categorize(), applyRules(), askClaude(), generate(), getCategorySummaries(), save()	SD2	Adapter, Singleton

Feature	Description	Type	Related Use Case	Classes	Key Methods	Sequence Diagrams	Design Patterns
F03 - Manual Categorization	Lets the user override a category and save a rule for similar transactions .	Deterministic	Use Case #03	GUI, AgentController, CategorizationService, CategoryRule, Transaction, Category, BudgetService, DatabaseManager	recategorize(), saveRule(), checkThresholds(), save()	SD3	Singleton

Feature	Description	Type	Related Use Case	Classes	Key Methods	Sequence Diagrams	Design Patterns
F04 - Budget Creation	Sets a monthly spending limit for a category	Deterministic	Use Case #04	GUI, AgentController, BudgetService, Budget, Category, DatabaseManager	setBudget(), budgetExists(), save()	SD4	Singleton

Feature	Description	Type	Related Use Case	Classes	Key Methods	Sequence Diagrams	Design Patterns
F05 - Budget Alert	Compares spending against budget and alerts the user when a limit is 80% or exceeded	Deterministic	Use Case #05	BudgetService, AlertObserver, GuiAlertPanel, CliAlertPrinter, GUI, CLI, DatabaseManager	attach(), detach(), checkThresholds(), getStatus(), notifyObservers(), onAlert()	SD4	Singleton, Observer

Feature	Description	Type	Related Use Case	Classes	Key Methods	Sequence Diagrams	Design Patterns
F06 - Manage Subscriptions	Detects repeating charges as subscriptions and flags overlapping services	Hybrid	Use Case #06	GUI, AgentController, SubscriptionService, Subscription, Transaction, LLMClient, ClaudeClient, DatabaseManager	getSubscriptions(), detectSubscriptions(), classifyServiceType(), findOverlaps(), getOverlapMessage(), confirm(), generate()	SD5	Singleton, Adapter

Feature	Description	Type	Related Use Case	Classes	Key Methods	Sequence Diagrams	Design Patterns
F07 - Natural Chatbox	Lets the user ask questions in plain language to the agent	AI based	Use Case #07	GUI, AgentController, FinanceAgent, Tool, SpendingTool, BudgetTool, LLMClient, ClaudeClient, AnthropicApi, DatabaseManager	askQuestion(), run(), executeTool(), stepLimitReached(), execute(), generate(), find()	SD6	Singleton, Adapter

Feature	Description	Type	Related Use Case	Classes	Key Methods	Sequence Diagrams	Design Patterns
F08 - Savings Goal Management	Sets savings goals, records contributions, and shows progress and the monthly amount needed	Hybrid	Use Case #08	GUI, AgentController, GoalService, Goal, GoalState, InProgressState, CompletedState, LLMClient, ClaudeClient, DatabaseManager	createGoal(), addContribution(), getGoalStatus(), getStatus(), getMessage(), updateState(), setState(), generate()	SD7/SD8	Singleton, Adapter, State

Feature	Description	Type	Related Use Case	Classes	Key Methods	Sequence Diagrams	Design Patterns
F09 - Monthly Report Generation	Produces a summary of monthly totals, category breakdown, budget performance, and saving tips.	Hybrid	Use Case #09	GUI, AgentController, ReportService, MonthlyReport, BudgetService, SubscriptionService, LLMClient, ClaudeClient, DatabaseManager	generateMonthlyReport(), generate(), getStatus(), findUnusualTransactions(), detectSubscriptions(), writeSummary(), templateSummary()	SD10	Adapter, Singleton

Feature	Description	Type	Related Use Case	Classes	Key Methods	Sequence Diagrams	Design Patterns
F10 - Export File	Exports a report to a file in the chosen format	Deterministic	Use Case #10	GUI, AgentController, ReportService	exportReport(), export(), writePdf(), writeCsv(), writeMarkdown()	SD9	N/A
